

## REMARKS

The specification has been amended to update information regarding the cross-referenced patent application. Claim 1 is canceled. Claim 2 is amended. Claims 2-21 remain in the application.

Claim 1 has been rejected for anticipation by JP2003085772A (Kadokawa, et al.). That rejection is moot in light of the cancellation of claim 1.

Claims 2-7 are objected to for depending on a rejected base claim. That objection is overcome by cancellation of claim 1 and amendment of claim 2.

Claims 8-21 are allowed.

Accordingly, all claims in the application are allowed or allowable, early notice of which is earnestly solicited.

Date: *January 1, 2006*

Respectfully submitted,

*Terrance A. Meador*
